NPIC/TDS/D-730-67  
7 March 1967

MEMORANDUM FOR: Chief, Imagery Analysis Staff, DDI

SUBJECT : Twin Stage On-Line PI Comparator

REFERENCE : (a) Your Memorandum, IAS/OSS-29-67, dated 23 Feb 67  
(b) TDS Memo, NPIC/TDS-12-67, dated 13 Feb 67

We appreciate your comments in your referenced memorandum regarding our Fiscal Year-68 program and will include them in our planning. I would like to assure you regarding the Twin Stage On-Line PI Comparator that we have always envisioned this device as interfacing with a small general-purpose computer to meet your requirements. The Development Objectives, which were sent to industry on 17 February 1967 to solicit proposals for this comparator, stated in Section 4.4 that the comparator is intended for on-line computer use both with a Univac 494 Computer and as a self-contained system incorporating its own small on-line computer. The contractors have been requested to bid on this comparator in both of these modes. We will inform [redacted] of your Operations Support Staff when the proposals arrive and solicit his assistance in the evaluation.
